

YOUR VISION.

Needs. Analysis. Recommendations. Plan.

Freight

1. Ice Breaker Visions

- **Air quality issues: reduce freight emissions (idling, maintenance, move freight to rail and marine modes)-Trucks still key**
- **Remove artificial bottlenecks and chokepoints**
 - **Three lanes on all interstate highways**
 - **Dedicated truck lanes**
 - **Last mile truck issues/clean trucks**
 - **Statewide truck route designation and restrictions**
- **Private sector involvement to help find solutions**

2. Trends and Issues

Top 4

- Reduce congestion/dedicated truck lanes**
- Integrated, multi modal state freight plan- connected to regional and national plans**
- Restoration of freight rail system**
- Truck parking**

3. Transportation Investments

List

- Infrastructure: roads, capacity, efficiency, third lane, multimodal**
 - Waterways**
 - Rails**
 - Airports: Bradley**
 - Alt. fuel infrastructure**
- Dedicated funding source**
 - Use gas taxes for transportation**
